

# JavaScript Snippets

# WHAT MAKES JAVASCRIPT UNIQUE?

*There are at least three great things about JavaScript:*

- *Full integration with HTML/CSS.*
- *Simple things are done simply.*
- *Support by all major browsers and enabled by default.*

*JavaScript is the only browser technology that combines these three things.*

*That's what makes JavaScript unique. That's why it's the most widespread tool for creating browser interfaces.*

*That said, JavaScript also allows to create servers, mobile applications, etc.*
