TOP DEVELOPER TOOLS

NETFLIX DISPATCH

It manages security incidents by deeply integrating with existing tools used throughout an organization (Slack, GSuite, Jira, etc.,). Netflix Dispatch is a tool in the Monitoring Aggregation category of a tech stack.
CHAKRA UI

It is a simple, modular and accessible component library that gives you all the building blocks you need to build your React applications. Chakra UI is a tool in the UI Components category of a tech stack.
LINEAR

It helps streamline software projects, sprints, tasks, and bug tracking. It's built for high-performance teams. Any action can be accessed and completed in seconds with the command menu.

LENS

It is the only IDE you'll ever need to take control of your Kubernetes clusters. It is a standalone application for macOS, Windows and Linux operating systems. It is open-source and free. A Lens is a tool in the Container Tools category of a tech stack.

POWER VIRTUAL AGENTS

It empowers teams to easily create powerful bots using a guided, no-code graphical interface without the need for data scientists or developers. It addresses many of the major issues with bot-building in the industry today.
